On January 09, 2019, we received the good news from Clarivate Analytics (former Thomson Reuters Intellectual Property and Science Business) that *Cardiovascular Diagnosis and Therapy* (CDT) is indexed in Science Citation Index Expanded (SCIE).

CDT is the 10th SCIE-indexed journal of AME Publishing Company, following the other nine sister journals:

- ❖ *Journal of Thoracic Disease* (<http://jtd.amegroups.com>)
- ❖ *Translational Cancer Research* (<http://tcr.amegroups.com>)
- ❖ *Annals of Translational Medicine* (<http://atm.amegroups.com>)
- ❖ *Hepatobiliary Surgery and Nutrition* (<http://hbsn.amegroups.com>)
- ❖ *Quantitative Imaging in Medicine and Surgery* (<http://qims.amegroups.com>)
- ❖ *Annals of Cardiothoracic Surgery* (<http://www.annalscts.com>)
- ❖ *Translational Lung Cancer Research* (<http://tlcr.amegroups.com>)
- ❖ *Translational Andrology and Urology* (<http://tau.amegroups.com>)
- ❖ *Gland Surgery* (<http://gs.amegroups.com>)

CDT is an open access, peer-reviewed international periodical English journal, publishing articles related to cardiovascular medicine and surgery. Led by Editor-in-Chief Prof. Paul Schoenhagen from Cleveland Clinic (USA),

CDT is further supported by a strong lineup of over 80 reputed experts worldwide in the field of cardiovascular as the Editorial Board members (*Figure 1*).

CDT upholds AME's philosophy and standards in running journals. It emphasizes the internationalization of editorial board members, authors and reviewers (*Figures 2,3*), and strictly monitors the quality of published articles. With the joint efforts and support of editorial board members, authors and reviewers, CDT has made great progress and published a great number of high-quality articles (*Figures 4,5*). Taking this opportunity, we would like to express sincere appreciation for their enthusiastic and vigorous support and contributions to CDT.

We would also like to extend our sincere gratitude to another group of experts—our Guest Editors, who have been actively involved in the forefront of scientific research and clinical practice and devoted their precious time and effort to organizing high-quality focused issues which demonstrate the cutting-edge knowledge, techniques, and discussions in their professional fields to our readers (*Tables 1,2*).

Being indexed by SCIE is a tremendous step for CDT. We endeavor to make CDT a top-tier publication in the field of cardiovascular. Meanwhile, we will make the journal a significant communication platform for clinicians, scientists and researchers in the field. We warmly welcome future high-quality articles and look forward to your continued support!

**Figure 5** Retrieval of *Cardiovascular Diagnosis and Therapy* in PubMed is increasing (Data were collected from PMC Publisher Services on Jan. 09, 2019).

**Table 1** List of published focused issues and guest editors

Number	Issue	Topic of the issue	Guest editor	Affiliation	Country
1	Vol 4, No 2	MR Imaging in Cardiovascular Disease	Sasan Partovi	Case Western Reserve University	USA
			Christof Karmonik	Weill Cornell Medical College	USA
2	Vol 5, No 3	Salt Reduction dedicated to World Hypertension Day 2015	Hussain Isma'eel	American University of Beirut	Lebanon
			Paul Schoenhagen	Cleveland Clinic Foundation	USA
			Jacqui Webster	University of Sydney	Australia
3	Vol 5, No 5	Mechanism-based Therapeutic Strategies in Type 2 Diabetes	Francesco Paneni	Karolinska University Hospital	Sweden
			Sarah Costantino	Karolinska University Hospital	Sweden
4	Vol 6, No 4	Coronary Atherosclerosis	Yu Kataoka	National Cerebral & Cardiovascular Centre	Japan
			Stephen J. Nicholls	University of Adelaide	Australia
5	Vol 6, Supplement 1	Cardiothoracic Surgery in the African Continent	Koffi Herve Yangni-Angate	University of Bouake	Cote d'Ivoire
6	Vol 6, No 6	Advanced Venous Imaging and Image-guided Venous Interventions	Sasan Partovi	Case Western Reserve University	USA
			Suvranu Ganguli	Harvard Medical School	USA
7	Vol 7, Supplement 1	Advances in Cardiovascular Disease Prevention	Ian Graham	Cardiovascular Medicine in Trinity College	Ireland
			Nathan D. Wong	University of California	USA
8	Vol 7, No 2	CT-based Hemodynamic Assessment/myocardial Perfusion, and Infarct Characterization	Gaston A. Rodriguez-Granillo	Department of Cardiovascular Imaging, Diagnostico Maipu	Argentina
			Patricia Carrascosa	Department of Cardiovascular Imaging, Diagnostico Maipu	Argentina
9	Vol 7, No 5	Advances in Cardiac CT	Prabhakar Rajiah	UT Southwestern Medical Center	USA
			Suhny Abbara	UT Southwestern Medical Center	USA
10	Vol 7, Supplement 3	Thrombosis	Rahmi Oklu	Mayo Clinic	USA
11	Vol 8, No 1	Echocardiography	Kazuaki Negishi	University of Tasmania	Australia
12	Vol 8, Supplement 1	Advanced aortic imaging and intervention	Evan J. Zucker	Stanford University School of Medicine	USA
			Anand M. Prabhakar	Massachusetts General Hospital	USA
			Suvranu Ganguli	Massachusetts General Hospital	USA
13	Vol 8, No 3	Pulmonary Vascular Disease: Diagnosis and Endovascular Therapy	Sanjeeva P. Kalva	University of Texas Southwestern Medical Center	USA
14	Vol 8, No 5	Platelet Function and Antiplatelet Therapy	Fabio Mangiacapra	Campus Bio-Medico University	Italy
			Emanuele Barbato	University Federico II	Italy
15	Vol 8, No 6	Current management aspects in adult congenital heart disease (ACHD): Part I	Harald Kaemmerer	German Heart Center Munich	Germany
			Yskert von Kodolitsch	University Clinic Hamburg-Eppendorf	Germany

**Table 2** List of upcoming focused issues and guest editors

Number	Topic of the issue	Guest editor	Affiliation	Country
1	Addressing CVD/NCD in the context of reaching SDG 3.4 in 2030	Shanthi Mendis	Geneva Learning Foundation	Switzerland
		Jagat Narula	Icahn School of Medicine at Mount Sinai	USA
2	Current management aspects in adult congenital heart disease (ACHD): Part II	Harald Kaemmerer	German Heart Center Munich	Germany
		Yskert von Kodolitsch	University Clinic Hamburg-Eppendorf	Germany
3	Vascular Imaging	Brian Ghoshhajra	Harvard Medical School	USA
		Sandeep Hedgire	Harvard Medical School	USA
4	Percutaneous Structural and Valvular Heart Disease Interventions	John P. Vavalle	University of North Carolina School of Medicine	USA
		Sameer Arora	University of North Carolina School of Medicine	USA
5	Cardiovascular Diseases in Low- and Middle-Income Countries	Ntobeko Ntusi	University of Cape Town	South Africa
		Karen Sliwa-Hahnle	University of Cape Town	South Africa
